This presentation was prepared by Mike and Renae Sinclair in the spring and summer of 2004, at the request of, and using the collected materials of, Kirby and Harriett Woehst. Border and banner images at the sides and bottoms of the pages were collected from the internet.

Dedication

As a personal note from Mike, it has been an honor to work on this, and very enlightening to see some of the actual articles from that time. The diaries are very insightful into the mindset of the men involved. And the records of the missions- wow! History came alive! I hope this is able to bring those memories back for the crew, and help their friends and family members feel the same inspiration and admiration that I felt working on it.

Thank you, Kirby and Harriett, for allowing me to experience this.
